Level and credit equivalents

The Professional Certificate in User Research has been allocated 15 SCQF credits at Level 7. Level 7 indicates the level of complexity of the course. The number of credit points indicates the length of time it takes to complete the course. One SCQF credit point represents an average of 10 hours of learning time.

For more details, please see the SCQF website.

The table below estimates the equivalent levels and credit points for a selection of countries. Exact equivalents are made at the discretion of individual universities.

If you don't see your country listed or you have any questions, feel free to send us an email.

GCU
Glasgow Caledonian
University

University for the Common Good

Region	Framework	Level equivalent	Credits equivalent
